# BLUEBERRIES

Bobby Blueberry here. Plump, juicy and sweet, my brothers and I grow together on bushes in small clusters or groups. Each one of us is about the size of a marble and round in shape. We are pale greenish at first, then turn reddish-blue, and then dark blue when ready to eat. We mostly bloom any time between May and August. We're super easy to eat because you have to wash us but you don't need to peel us or remove a pit (a large seed in the center).

## The Sweet LIFE

The darker our color, the sweeter we taste, so we go great in muffins, pies and other desserts. You may even find us on your breakfast cereal or in pancakes.

## MAZE

Help Bobby Blueberry meet up with Polly Peach in June.
